United Concordia dental℠

Get preventive dental care without maxing out

Preventive Incentive® allows you to stretch your benefit dollars further by excluding certain preventive and diagnostic services from counting toward your annual plan maximum. This way, you'll have more annual maximum dollars available to use for basic or major dental services.

How it works:

With Preventive Incentive®, covered diagnostic and preventive dental services don't get applied to your annual plan maximum. Depending on the plan design, these services may include cleanings, exams, X-rays, fluoride treatments, and other services.

For example, the cost of your preventive care — like cleanings and exams — would normally be subtracted from a member's annual maximum. With the Preventive Incentive®, the maximum remains unaffected. Members using the incentive option could then use their maximums for other procedures or treatments.

Every United Concordia Dental plan has an annual maximum. This is the amount the plan will pay toward the cost of dental treatment during a plan year.

Your preventive care incentive is available immediately — no waiting until the next plan year.

With United Concordia's Preventive Incentive®, covered preventive and diagnostic services don't get applied to your PPO plan's annual maximum — an additional benefit to our PPO plan members.

Here are examples of ways that PPO plan members save with Preventive Incentive®:

Annual Preventive Care	You Pay	United Concordia Dental Pays	
2 Cleanings	$0	$124	**With Preventive Incentive, $227 doesn't count against your annual maximum.**
2 Exams	$0	$64	
1 Set of X-Rays	$0	$39	
Total	**$0**	**$227**	

Examples reflect national averages. Assume 100% coverage for diagnostic or preventive services.

Get the preventive services you need and save more for other covered dental services.

The Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
